Aircraftkiller wrote on Sat, 09 March 2013 18:11 Did you know that Ur is a city, not the words your or you're? I'm just going to assume that you've got sausage fingers that individually weigh several pounds each, requiring Herculean effort to move them into position over your keys. I can't imagine any other circumstance where typing "your" would be so difficult as to require shortening a word that takes a half second to type.

Reminds me of a funny simpsons episode.
