StealthEye wrote on Mon, 01 April 2013 06:08I do however want to fix the bug with incorrect messages appearing when switching between servers. So far I have not been able to reproduce the issue, so if anyone has any reproduction steps, it would be appreciated.
It only seems to happen to our players after we set the next map to a fan made map and it is downloaded. Then leaving the server to go play in another one they then get the false anticheat messages. Restarting Renegade seems to clear it up.
