Dude wtf is ur issue with me, this is the reason you got banned before. Whats the point of using both maxes when you can just use 8. Therefore 2013 is irrelevant if he can't get 8. Therefore it will not work. It's common sense you can export to different format and import into 8, however if he can't get 8, 2013 is IMPOSSIBLE to work for exporting models to renegade.
