There is, last night I just press the ignore messages from this user button.. I ain't got time for him.... It happened years ago, and I don't even know why. He's just always had a thing against me. Even before I ever gave any kind of advice, when I modeled stuff he'd have something to complain about just because he thinks he's the god of anything to do with modeling. He got banned from here because of ignorance and hate towards a lot of people. But I won't say anymore because this thread is not to flame him.

EDITED - And RenX is ok, if you get used to Max, RenX is like wtf is this sh** lol.
