if they were, what difference would that make?

is he upset that Jelly players called him an invisihugger (when he actually had a video of himself invisihugging on Jelly - go figure)

maybe it's better for his god complex to pretend all criticism is null and void

he's also under the assumption that he's great at Renegade, because one of his first insults is that other people are bad (if you've actually played with DJ you'll see why that's humorous)

i still don't understand why he thinks so highly of himself - he's not actually great at anything, let alone good

my guess is he got so tired of me asking that he put me on Ignore - better to run and hide from the truth than suck it up and face it like a man
