DragonFgGriever92Crimson"guest"s IP matches Griever's. I should ban the account.

Thats cause we go to the same School, for Fucks sake, notice how I usually logon from a different IP?

So someone else at your school just happens to be into Renegade too?

Plus if you send from the same IP within a minute that says something

its called, Firewall. all the school's comps are routed through one server, then a firewall.
