ehhh wrote on Mon, 10 June 2013 15:47people have kills but no points noob

also eth has a postive kd somehow
lol i was hitting headshots left and right for once!

itoxics quote says that the startup score is -2147483647 (I assume that means from the XWIS menu), which is the smallest possible value for an integer... interesting behavior to developers, anyway. but it seems they know of this already. hopefully a fix is found sometime!
