Is anyone still producing maps and things for this game? (including mods that are bolted onto Renegade instead of being stand-alone like APB, Reborn etc)

In particular, is there still interest in using the features talked about in

http://www.renegadeforums.com/index.php?t=msg&goto=480048&rid=40#msg_480_048

We are trying to figure out where to go from here with 4.0 and how much effort to put into future builds for Renegade players and this information will guide our thinking on this.
