TT 4.0 Update is Required

The Tiberian Technologies Update 4.0 for Renegade is required to play on the server.

You can download it on their official website if you do not already have it.

It adds lots of extra's, anti-cheat and a ingame automatic map-downloader, awesome stuff!

Active Server Plugins

Of course the server will run our own mpf_newmaps.dll plugin which adds additional functionality to the server such as Veterancy and Special Crates & Power-ups.

Other plugins running on the server are for example the Team Donate and Infinite Ammo.

Game Prize

This month's Game Prize is Killing Floor on Steam.

The person ranked first on our server at the end of May will receive this into their Steam Account as a gift.

Mappack is Available

You could download our Mappack before joining the server. This ensures you have all the maps already.

Then you will not experience any ingame download dialogs which may take long if you have a slow(er) connection.

All you do is click Next, Next, wait for it to install the maps and then you're done and ready to join.

Thanks

Thanks people for reading this and maybe joining up this upcoming Friday the 1st of March.

Please feel free to spread this news around a bit to attract more people and let's see if we can have some fun the Weekend it lasts.
