Goztow wrote on Fri, 16 August 2013 00:13 Maybe an update already exists for FUD forums to make this possible? Are we anywhere near a recent version of it?

No, I don't think we're near a recent version. I am really trying to get this forum moved to a better box I have by the end of the month so I don't have to pay another monthly fee for this shitty one. :\

Hopefully in that time, I can also upgrade it, but we'll see. I just don't want to deal with the theme/appearance possibly needing work to be compatible.
