Quote: You are seeing this page because Trojan/Volcom is a manipulative incompetent community runner.

He has, on multiple occasions tried to organize and start his own community only to fail shortly after.

He manipulated everyone into thinking Animoski is an evil bastard for using surplus donation money for weed

when Animoski has put more of his own money into RenCorner than he took out.

The worst part of it all is actually watching Trojan buy people out and manipulate their feelings. It happened to Animoski but it happened to

everyone else. "Oh hey guys who wants a copy of Killing Floor? Only 40 left!" "Hey guys, who wants to run their

own gaming server?" - You guys think Animoski taking donation money for his own use is bad? What about

giving Blacky \$300 to leave TmX to code for RenCorner. Yeah, Trojan did that - worse than that, Blacky

wasn't able to code for weeks right after the 300 exchanged. Trojan, you're a joke using "OOOO HE USED DONATION

MONEY FOR POT" as an excuse to get rid of Animoski, when you blow money left and right.

How much money did you give LSN just to repair YOUR OWN SHITTY MISTAKES?

The way I see it, i'd trust Animoski with money over your ass any day of the year.

No one is getting use of this domain name, no one.

Message to: Apollo/(insert 20 other handles)/DrSithis - your infinite knowledge on computer information

systems revolves around you using Google and largely available "WHOIS" tools to gather an impossibly

large ammount of information - you're a virgin for life and now you've been sucking Trojan off. Honestly,

you probably are dumber than Trojan so here's an offer: find where out where I live and order me a pizza.

Honestly though, I wish pastebin was like wikipedia - i'd edit your posts and just be like "WHOIS.COM"

Signed,

Someone who thinks the head people of RC should get their brains checked

P.S. Animoski was a better person, a better leader, and RenCorner was better with him. When Animoski ran shit, he had just 2 games running - Renegade and Minecraft and still managed to pull in

more traffic to the website than Volcom has been able to with his rampid advertising, social nerd media, running up costs with stupid game servers, etc. No one cares! YOU SUCK VOLCOM.

I mean, just look at the forum traffic, lol

Cronus is sure telling them
