Oh wait...

TOO SOON?

Thats your reply? You are a joke Xpert, you have always been since u stole Campas Mod back in the Atomix/RC Days, You dont have something serious to reply, so you try to troll PPL, sadly its not working that way and just shows how small-minded you actually are. And no worries, you dont have to follow my Moddin way since you were banned for obvious reasons actually every1 agreed with.
