Rambo def doesn't cheat hes not even that good lol. Exactly LOL! The fact you guys banned rambo for cheating is just fucking hilarious.

What's more hilarious (if that's an appropriate term here) is experienced members of Renegade informing you guys that that is simply a first person glitch (though I myself wasn't aware of it 'til now), and you guys simply discard it because "he must be guilty if he didn't immediately make a forum account and post in defense of himself!" Hey, we've used a similar policy before, but not for someone that we knew for a god damn fact was wrongly banned!

Also, I've never in my entire rene-career seen a wallhack that would make the floors invisible (hence the term, wallhack), which would have to be the case in the video of rambo. You guys are free to run your community as you choose and I will not infringe upon that right, but I do reserve the right to make fun of you guys for doing a terrible job!
