EvilWhiteDragon wrote on Mon, 02 December 2013 10:28 Seems to me as an issue with your GFX card. I used to get that kind of artifacts when I OC'ed my card too much, but you can also get it from overheating issues. Could you verify this?

Additionally, could you point us to the many players that have this issue?

I can not cuz I had upgraded my video card long after I took that video in Feb and have been too busy doing other ren related things to be active enough in game.

The link I posted above was a topic started in October regarding this issue.
