Please make a public poll on whether or not I should be banned for my behavior. I'm interested to see if it's a majority opinion or just one of the people that do most of the provoking (Ethenal and liquidv2). Liquid asked me to name 50 people that I communicate with normally to which I did and was promptly banned afterwards lmao. It's amazing, the guys that provoke me most are the ones most easily butt hurt when I respond. Why am I banned from the entire IRC network / forums / TS / game servers when the only offense I made was on IRC? IRC has always been public uncensored forum. Actually when I banned atrocity for calling me a useless mean mean black person and telling me to kill myself and saying how much better the world would be without me and then linking to 10 pictures of girls being fucked by horse cocks liquid and ethenal punished me because apparently anything goes in IRC. I guess this is not the case for me. Who would have thought? Sad that one of the best community's this game has seen is now run by the two most power hungry dictators. Peace ya'll.
