I don't see Liquid doing this to any other players, do you?

I don't want to see a butthurt reply from you either. You asked for these comments so don't even think about raging.

Hmm do you want a list? I can think of 7 right off the top of my head.

Considering liquid already begged trojan to delete anything I post at rencorner I'm not surprised he got you involved right away crimson. lmao

If jelly games was the show Dexter I would be Sgt. Doakes and liquid would be Dexter. I'm apparently the only person in the community that realizes what a fucking creep he is and for that I am always punished because he has all his buddies in positions of power covering for him.

I could post various incriminating logs but I don't want to make this too personal, I just think this ban is fucking bullshit. Please tell me why there was no warning raven? Especially when you agreed with me about the Bunny thing and then turn around and use it against me?
