Thanks for the heads up. I've been out of the loop for a while and only tested MP Practice...

I'll give it a test on a real MP Game soon and come back if there are further issues.

Also, I was trying to get my own MP Server setup (as I have decent VPS on a 1Gbps line I get for free)... but never seemed to be able to connect, just got Gameplay pending 2x then kicks. (checked the ports, disabled firewall, etc)... anyways, that's a separate issue.
