Neijwiert wrote on Sun, 09 February 2014 23:52I find it interesting that this should be looked at, considering the fact that even microsoft themselves don't even support that OS anymore.

They do still support it... until April anyway. The unfortunate reality is that, despite no more support for XP, many people will blindly continue using it until their PC explodes and they're forced to upgrade to an operating system that's less than 12 years old...
