http://new.brenbot.com/plugins.php

You're still hosting that, do you intend to update that section of the site? Or do you just want people to get the plugins from the SVN?

It doesn't matter to me since I have the SVN checked out anyway, but I just noticed the BR distribution in the server files doesn't have any plugins.

P.S. and lol, I should have commited the mapload event fix, I had seen the =~ "Level loaded OK" thing awhile ago and fixed it on mine, but forgot to push it.
