Yeah it's hilarious the ideas liquid has .. sending logs to my parents. I really hope he does so they can laugh at him! Haha that would put him on the same level as c4packer9 making the video for spooony. Where do these weird kids get these ideas? Everytime I hear about a conversation he had with someone where he spread more lies about me and then says I'm the one spreading lies I laugh hysterically. He was part of the conversation and has read it thirty times and still maintains that I was the first one to post people's names in IRC! It's quite comical! No wonder he dropped out of college when most dogs can be trained to have better reading comprehension.

They maintain that it was not a big deal for Bunny to post my information in chat or stalk me for months yet when I posted their's I was overstepping the line and it's a huge reason for my ban. Logic at jelly .. not even once.

At least change my ban reason to "we don't like you" if you can't actually have a valid reason.
