Hello Jonwil, I too have the same problem.

I find that my saved control configuration is deleted when I restart the game. I use a control config for infantry and the default for vehicles with secondary fire (apahce/orca/mammoth etc).

You can contact me anytime on my MSN (marcstarbuzzAHotmail.com). I use Skype to chat using my hotmail account. I see you in my Contact list.

Hope I can be of help.
