i can fully back Captpo0ed in his argument - Kickmofo has a habit of just spamming all caps at people and expecting them to obey  
he comes across as a seriously angry robot instead of a human being lol

brings me back to the Kickmofo incident with AnThRaX

the guy was in the wrong for attacking team vehicles, but it could have been handled much better rather than acknowledge that, the MPF bandwagon hops on Kick for support to attack the guy - it's like gang mentality or something

oh well - carry on MPF
