I see you still read these forums and I wanted to let you know a couple of my observations....

1. Glacier flying is the worst map in renegade, hands down. The only thing going for it is that it's a flying map; however, I've never understood why you made it flying and then decided it'd be a good idea to make it super enclosed. Don't even get me started on why you decided to make it with base defenses since they are completely worthless.

2. I saw you bashing renegade x in a previous post... weren't you one of the top people in APB? Possibly the shittiest mod ever made for renegade?

That's it. My first renegade forums post I believe. That's how it's done, folks.

Oh. And one more thing aircraftkiller... Suck it. Long and hard.
