What would constitute "winning" this topic? There is no "winning" on RenForums (or on any Internet forum for that matter), at the end of the day we're just jacking each other off on a website that is a relic from a very old game that very few still play.

Each person claims that they aren't a no-life loser (which is contradicted by the fact that they're posting on a 10+ year old forum) and that everyone else is the no-life loser, when the fact is that everyone on here is a no-life loser.
