Not sure I ever downloaded the version in this thread, though, but I may have found it in 2 places through Google (it has .lvl and .lsd files, but no .mix). Links here:

I saw that topic. I wasn't sure if it was up to date. The .mix file isn't up to date but his .lvl files are I believe. Either way, the mix I got is all I needed. I modified the map for sniping. Had a fun 3 v 3 on it lol.
