IceSword7Bring n00bstories to halo so we can keep up the rivalry between clanwars and n00bstories

There is no rivalry. It's all one-sided. We really don't give a shit about ClanWars.

Halo IS one of the 9-10 games we're moving into. In fact, with the new system, I can move into another game in about 2 seconds. The hard part is just marketing.

Regarding CS, I probably won't move to that game just because the community there IS so friggin large. We'll see how we fare with the newer games rather than trying to break into a older established community.
