Ethenal wrote on Tue, 29 July 2014 17:01 I think you missed the question - why do you think we should let you in the server? What do you have to contribute as a player/person?

I am kind, courteous, respectful, compassionate, sympathetic, humorous, and one of the best renegade players around so that is pretty beneficial to players that want to get better. Also I can offer various information to people of the jelly-community like my vast experience with Tinder in regards to the topic appshot posted. I have over 5000 matches and counting so I must be pretty cool.
