## Subject: [SSGM Plugin] CheckPlayerName Posted by roszek on Thu, 14 Aug 2014 00:57:49 GMT

This plugin is a rework of an old plugin of mine that changed spaces from players nicks into underscores when they joined.

It still changes spaces but now it will change any char specified in the ssgm.ini under [InvalidChars] as well. It will also change a player's nick if it contains words listed in ssgm.ini under [UnallowedNicks].

For characters: Add the Characters not wanted in nicks after Invalid=.

For words or names: Add a number in sequence after the word BadWord and then the word or name to look for (BadWord1=someword).

Shown below...

[Plugins] 00=BanSystem.dll 01=Mute.dll 02=CheckPlayerName.dll

[InvalidChars]

Invalid=V.,

[UnallowedNicks]

BadWord1=shit BadWord2=ass BadWord3=homo
