Xpert wrote on Sun, 28 September 2014 16:02: Never had this problem. Unless you're only running 2 maps then maybe because I've seen it bug sometimes with just 2 maps on rotation.

Na.

I wrote a simple ssgm rotation command to show what I mean.

With the brenbot command you see a map missing from the list, there are 5 maps as you can see from my plugin.

The brackets mess up when it gets to a map not listed.

```
roszek: !rotation
Host: The map rotation includes:
Host: [Polynesia] Canyon_Falls Tiberium_Crossing Little_Pond
Rotation: [Polynesia] Tiberium_Pit Canyon_Falls Tiberium_Crossing Little_Pond
roszek: !maplist
```

The screenshot shows a command prompt window with a dark background. The text is white and green. The background image is a map from the game Command and Conquer: Renegade, showing a landscape with a river and some structures.
