ThinkHarder... but damn do you have to be so nasty, no wonder you have a bad reputation, just calm down!...

If you think I have a bad reputation, then I know where YOU hang out. I only have a bad reputation among the lowlifes. And I'm fine with that.

No, YOU yourself didn't post that. It's the cumulation of posts. There are people who are never happy no matter what you do, and when you work hard to make people happy, those people who will never be happy really frustrate you... especially because they tend to voice their unhappiness loudly and our hope is that people who haven't downloaded the mod won't listen to that drivel and download it themselves to judge.
