Spoony did better in public servers than almost all other clanwars people, even the revered guys like simpee and clearsh0t

maybe he wasn't the best ever at small games, but he knew what he was doing and was competent at the very least

if I recall correctly, he seemed to blow at tunnel sniping the one time it happened (waiting for a com match to start or something), but Renegade isn't about tunnel wanking with sniper rifles

I don't remember the whole drama / host name thing so I can't weigh in on that whatsoever

HTMN was pretty good
