LOL I remember ages ago when the first beta test for Ren Alert was realised and what did i say? The Artillery sucks, its retarded especially when it comes to attacking an enemy building. Once your start to shoot, the artillery jumps and the turret goes out of place and you have to you have to target the oobject once agian. The aiming on that thing is way off and as thinkharder said and i said along time ago it just doesnt work with renegade !!! :rolleyes:

YOU NEVER LEAAAARN DO YOOOU !!!!

EDIT: Grammer Improved !
