04:45Jerad Gray wrote on Wed, 14 December 2016 09:01I seem to have found a bug:

If you favorite TONS of servers the refresh button quits working.

Do you mean mark all available servers as favorite?

Yeah, and then some (I was marking the as favorite for a very long time).

You can also connect to the server using the right mouse button and then clicking connect, this works a lot better.
