jonwil wrote on Sat, 31 December 2016 00:28I only ask since 4.x ships a new C&C_Field.mix file and I dont know who made the changes or what fixes that level file contains and I want to make sure we dont loose those earlier changes in the process of making this new change.

EDIT: It might have been Iran who made the fixes to Field since some Iran_xxx scripts are present on the map.

Ok, I will take a look at the iran fixed mix and see if theres anything i can do with it
