Ultron10England

I already bought it, so addictive, i was gonna apply for -WL- but i dont have a mic, so i didnt bother.

No problem, you can download TeamSpeak and listen to us. We know that not a great deal of gamers have a mic at the ready, so you can still apply to be in WL, you'll just need to go out and buy a mic not too long after you've joined.

Just plug your headphones into the mic port and talk into them.
(No seriously, It works!)
