Subject: FDS server loads up doesn't show up on gamespy renlist.
Posted by silenthitman99 on Sun, 25 Mar 2018 18:13:41 GMT

This is the problem I get.. But I've really never knew how to use IRC and I believe I would have to use it to update the gamespy plugin. However I want to use NightRegulator instead of brenbot. Also my username, password, serial and ports are all correct even when i use xwis wol irc option and still fails to load. is it even possible to use xwis anymore or would i have to use gamespy?
