When a game lives for 22 years, it sometimes sadly outlives some of its players.

This topic is a tribute to members that marked this community but are no longer among the living. We regularly do an ion cannon tribute for them. :nod: Rest in piece, brothers :nod:

Mindtzar

Passed away around 2008. Kind and clever guy who introduced me to programming 20 years ago. From memory, he created the image generator on n00bstories, where you'd enter your nickname and it'd show a fake Renegade screenshot with you at top of the leaderboard with an unrealistic score.

nfekti0n

Moderator at Black Cell.

Dom\_TreyD

Hosted servers way back in 2002 and pioneered some of the first moderation tools.

ZeeHypnotist

Zonekill9

Phyre

Bloodmoss

Gr8bigguy

Always around with a gunner or hotwire, Gr8 was everybody's René friend! Unfortunately he died from pancreas cancer after massive support from the rencorner community during his last weeks. Multiple rene tributes were organised during his last week's of suffering.

This ion cannon tribute is for you all

Please add forgotten soldiers so I can add them to the list
