Renegade forums now has a youtube channel, thanks to pwnCALL who's the youtube admin and main content creator.
<https://www.youtube.com/@RenegadeForums>

He already made a great video on how to install Renegade over steam, check it out if you haven't already. He's also working on some new video's to promote Renegade and its multiplayer gameplay. More about that soon as we have many ideas.

One of those ideas comes from Vultima: we'd like to post a series of 30 second videos : tricks, funny or action loaded "short" clips. We will add the renforums theme to them and possibly comment some of them. Or just share the original. The idea is these short videos could spread easily and maybe even learn new players some new things.

If you have content to share / add, please send it by PM to pwnCALL and me on the forums, or on discord!

If you have more ideas to promote Renegade, share it in this topic!
