Tournament is double elimination. Quoting pyr0manic from before, A non-optimised video explaining what double elimination is, in case anyone isn't sure, Watch the explanation video here:

We will be adopting a map ban process on the following map pool:

Volcano
Complex
Canyon
Walls_Flying
Tomb - BAN
City_Flying
Islands

Working Example of Pick/Ban System

Volcano - BAN (Team 1)
Complex - BAN - (Team 2)
Canyon - PICK - (Team 1)
Walls_Flying - PICK - (Team 2)
Tomb - BAN - (Team 2)
City_Flying - BAN - (Team 1)
Islands - Decider

Each team gets two bans, alternating ban ban, pick pick, ban ban, decider - whoever makes the final choice that nominates the tiebreaker/decider, the opposite team choosing the starting side.

I'll run a live screen share of coin flip/wheel of fortune for who picks first and a live spreadsheet

tracking the maps to be played and make a note of the deciding factions, if the map is required.
