People said Renegade is dead ages ago when the forums at <http://www.westwood.com> were closed. When the ladder was broken for a month over a year ago, people claimed that Renegade is going to die. Yet here we are

Yes, Renegade will die someday. And so will HaloPC, Super Mario and Doom6: The return of the monsters.

But Renegade isn't dead now, and won't be in several months to come unless EA decides to do something about it. That's a truth and you can't change it with your propaganda.
