Loose the banner at the top saying "team ground Level" It needs a redesign as it looks bad. The new one should have a balck background and include the blue you used for the tables in it somewhere so it looks in place. Also is there any way you can loose some of the ads? Normally if you get hosted you are only required to have one banner or a frame or something. If you was told that you need a banner then only add one - you don't need one at the footer too.
