Sir PhoenixxAprimeOK, so you've decided to get ride of my layout to get another one...But you're still using my navbar huh? I don't think so lil' boy.

Dude, your layout sucked ass. And he's still using it, the only thing that has been changed with your crappy layout was that he removed the main border.

...OK.

1. It was free.
 2. He isn't using it.
 3. It's not the layout you're thinking about.
 4. I wasn't talking to you, so take care of your own buisness.
