yall gotta check savage out. i was a big renegade fans but this is better there more people playing than renegade. Its 10x more addictive and believe me i really loved renegade. The community is split in 3 parts now tho cause of beta patches but in about 1-2 weeks everything should be fine. The new beta patch really improved lagg and frame rate. The game runs sweet and tis so intense, already some clans too, you guys have to check it out
