FYI, i've started work on a program to sort mp3's into folders, based on what is written in the ID3v1 and ID3v2 tags.

If a couple of you guys could e-mail me (webmaster AT thecodesmith DOT com) a screenshot example of how you would like your folders organised, that'd help. Take a screenshot of a view in explorer, so i can see the tree of 3 or more folders.

Such as...

mp3 folder/Artist
mp3 folder/Album
mp3 folder/Album - Artist
mp3 folder/Artist - Album
mp3 folder/Artist/Album
mp3 folder/Album/Artist
