Homeyl think taximes may have posted about this before(not sure).

http://progressive.warnerbros.com/thematrix/us/med/rev_theatre_0x10383910_1024_dl.zip

100mb preview of Matrix revolutions which comes out in 1month and a day.

You need quicktime 6 to play it.

You need to edit your link. It starts with "http" and should be "http". Works fine that way Also, those who haven't played Enter the Matrix are missing out on alot of the story.
