Interesting conversation.

I agree with Crimmy.

At the end of the second movie, Neo emits an EMP from his hand killing the Sentinels, but that couldnt be real. It implies that at that level, the level in which the first two movies professed to be "real life" were just another matrix in the Matrix, and that Nobody has seen "real life" yet.

It is also implied in the fact that Mr. Smith can overwrite a human brain. Hmmmm, that's some real sketchy Sci-Fi, unless it is just another matrix, where Smith isn't cooping anyone in "real life".

I think we have yet to see how far down the rabbit hole really goes...
