Cypher [PCNC]Secondly, the purpose if NOT to kill Neo. Taximes, go watch the Architect scene again.....

Neo, just like he says at the end, or rather The One is part of the control.
He mustn't be killed.

The only reason that he is a system of control is because they can't control him.

The third Matrix failed because there was "one systematic anomaly and only 99% accepted the system."

If they could've eliminated the anomaly, it would have eliminated the need to rebuild the Matrix with him as a part of the system.
