Notice how the quotes around the kicked symbolize that it was an example that worked with the theme of my post.

Notice how I said NOTHING about NS IRC, that was Scrumfy so leave me out of it, yeah, I've admitted that I took one step too far but I'm not begging anyone's forgiveness. Nor will I ever do so. All I ever try to do is make my servers fun, and orderly places to live, every kill done to your users in your channels solely were well thought out. We knew the rules. And generally our users were orderly they kept to the bcservs and my channels, now and then joining #n00bstories. But some of your users (ex. AuroraX0 spamming OperServ with "OMFG NETSPILT0R") were deserving of discipline, so we took paddles and kicked them off the network. No, majkent, we really didn't use paddles, this has nothing to do with you, and it would good to stay out of it.
