I just downloaded the Renegade Aleart Mod, and prior to installing it, I was wondering if there will be any conflicts between RenGuard and RenAleart?

RenAleat is a Mod, and RenGuard is ment to stop cheating mods, so I thought there may be a chance for a conflict. However I really don't understand how mods work (I am not a computer guy) so I may be compleatly off base.

Just wondering....and thanks for all the work, both the RenGuard team and the RenAleart team!!!
