Well, since one proxy mine does 100 damage, and a med has 800 total HP, it would only take about (...let's see, add the 7, carry the four, multiply by 2.2...) 8 or 9 prox mines to knock out a medium tank.

1. You can't say that proxy mines do 200 damage because:

They just don't do that much damage on the most vulnerable entity in the game (characters and infantry)

2. Vehicles/tanks have a different class of armour.
